Chihiro Taki

Chihiro Taki (b. 1988, Saitama, Japan) is a Japanese contemporary artist whose paintings explore dreams, identity and the psychological complexities of human experience. She studied painting at Tokyo University of the Arts, completing her master's degree in 2013, and at the Accademia di Belle Arti di Firenze in Italy, where she completed a second master's degree in 2018.

Drawing on historical and religious imagery, Taki reinterprets familiar visual traditions through a contemporary perspective. Her paintings bring together imagination, personal experience and symbolic references, exploring the tensions between vulnerability and strength, reality and fantasy.

Dreams have remained a central theme throughout her practice, offering a space in which fears, desires and questions of identity can take visual form. Through her distinctive figurative language, Taki examines how we confront the world around us and create private spaces of freedom and escape.
